## Highlights of Changes in 5.0.35.180

### ID: 11977 Support sync member by batch.

Due to overwhelming of member such as retails shop like DIY or Watson, system may have difficulties in capturing few hundred thousand of member in 1 sync session. Therefore, we have added sync member by batch so system can sync member batch by batch without timeout.

To access, go to **PosConfig.exe (Database configuration) > Sync Configuration > Files > Terminal Settings**

**Terminal Settings**

General | **Email**

Pause Sync Interval: 1 minute(s)

Manual Sync Timeout: 3 hour(s)

Auto Sync Timeout: 1.5 hour(s)

Sync item by batch: 30000

**Sync member by batch: 30000**

Sync transaction by batch: 30000

Email On Error:

☒ Notify On Error

☒ **Automatic Send Sync Error Report in text format only to AutoCount (Recommended)**
